DOE ORDER # 5400

SEP 24 1993

93-DOE-11135

Mr Martin Hestmark  
U S Environmental Protection Agency, Region VIII  
ATTN Rocky Flats Project Manager, 8HWM-RI  
999 18th Street, Suite 500, 8WM-C  
Denver, Colorado 80202-2405

Mr Gary Baughman  
Hazardous Waste Facilities Unit Leader  
Colorado Department of Health  
4300 Cherry Creek Drive South  
Denver, Colorado 80222-1530

Gentlemen

This letter is in response to the August 13, 1993 Colorado Department of Health's (CDH) letter, to Martin Hestmark regarding CDH's comments on the Exposure Scenarios Technical Memorandum No 2 (TM 2) for Operable Unit No 6, Rocky Flats Plant. The letter requires the comments to be incorporated in the Final TM 2. The letter also states that further changes may occur through finalization of the Human Health Risk Assessment (HHRA) Template, a document standardizing specific aspects of HHRA. This document will be developed and issued through a joint effort from the Rocky Flats Office/Department of Energy (RFO/DOE), the Environmental Protection Agency (EPA), CDH, and EG&G Rocky Flats, Inc (EG&G). Currently, no HHRA Template delivery date has been established.

RFO/DOE proposes to wait for all comments by CDH and EPA, including the Template, before proceeding with the Final version of TM 2. Delays to finalizing any of the Technical Memoranda may effect the ability to meet Interagency Agreement (IAG) Milestone delivery dates on the Resource Conservation and Recovery Act (RCRA) Facilities Investigation/Remedial Investigation (RFI/RI).

In addition to the potential delays related to the HHRA Template, EPA has not responded to the Draft of TM 2. Technical Memorandum No 2 was submitted to EPA on July 7, 1993. DOE requested a response by July 28, 1993. This delay in responding may also effect the ability to produce the RFI/RI Report in a timely manner.

Contact Norma I Castaneda at 966-4226 if you should have any additional questions.

Sincerely,

James K. Hartman  
Assistant Manager for Transition  
and Environmental Restoration
